AZ                    Ada Zhang

AZ     I'm Ada Zhang. I'm from China, and my current job is Group Finance Manager. After you graduate, the popular choices will be either you go to the big four, the audit firms, or you join the big companies, and also I think the training programme, when we're doing the campus recruitment, Unilever tell the whole programme very attractively, so you get the chance to understand the business, and also give you the chance to, to learn, even to make mistakes.
